

Unfading Beauty

Real beauty isn't here today and gone tomorrow. It's strong, stable and always enduring. You'll discover these qualities in every JELD-WEN Fiberglass and Steel exterior door. These doors are built to last. You can count on them to enhance your home for many years. Because at JELD-WEN, we always make beauty reliable.

JELD-WEN Exterior Doors | Fiberglass | Steel

Whatever you need your front door to be, JELD-WEN can fulfill your requirements. We make the greatest range of reliable exterior doors to suit a variety of architectural styles, climates and budgets. JELD-WEN Fiberglass exterior doors are a low-maintenance choice with beautiful details and designs to increase curb appeal. JELD-WEN Steel doors offer strength and style for a great value. They all are designed to meet ENERGY STAR® requirements*; and are reliable and worry-free.

*Energy performance ratings will vary with glass selection.

Variances in photography, printing and door sizes may cause the glass and panel appearance and finish color as well as the door layout shown to vary from actual product. Please contact your local dealer for more information.

CHOOSING YOUR DOOR SYSTEM

Beyond their clean design | JELD-WEN® exterior doors include many qualities that make them a beautiful choice. They're enduring. They're energy efficient. And they're perfectly low-maintenance. Options like decorative glass or blinds between the glass offer everyday beauty and convenience. Add sidelights or a transom to create your unique entry door system. Here are a few standard system configurations to choose from:

1 Choose Door Type

Fiberglass

The look of wood without the upkeep. Provides greater panel detail for an improved appearance and won't warp, dent or rust.

Steel Doors

Economical, low-maintenance choice that provides strength and style.

2 Choose Door Panel Style

Personalize your home with a door that suits your home's architecture. Here are just a few options.

3 Choose Doorglass

Enhance curb appeal and brighten your entryway with glass. Choose from decorative or clear options or with grilles and blinds. A variety of coming options and privacy levels are available to suit your taste and style.

Privacy Rating

Each doorglass design is assigned a privacy rating to help you choose the level of openness or obscurity that's right for you.

0-3 Clear 4-6 Obscure 7-10 Opaque
Allows view of shadows and color

4 Choose your Finish

Bring out the beauty of your JELD-WEN fiberglass door and provide peace of mind by using our Stain Kit. You can choose from a variety of colors and the kit includes everything you need for a high-quality finish. See page 159 for more information.

Fiberglass Doors

Architectural

JELD-WEN uses state-of-the-art technology to create the Architectural Door collection. The proprietary die technology used in manufacturing allows JELD-WEN to produce an exact replica of a wood door. The wood impression is then transferred to fiberglass—Mahogany, Fir and Walnut woodgrains have never looked like this before. Raised mouldings and LVL stiles with hardwood edgebands complete the genuine appearance of all doors within the Architectural Collection.

Mahogany

Walnut

Fir

Design-Pro

JELD-WEN's impressive line of wood grained fiberglass doors includes three distinct species; Mahogany, Oak and Fir. Each design has been carefully crafted to produce fiberglass doors that closely resemble natural wood. Mahogany, Oak and Fir doors readily accept stain with minimal prep work for a beautiful and long-lasting finish. Design-Pro doors are constructed with composite capped stiles, composite rails and BASF's innovative Neopor® Core.

Mahogany

Oak

Fir

Smooth-Pro

A complete line of contemporary styles and designs are available in our Smooth-Pro offering. Each Smooth-Pro door is lightly brush-stroked allowing for better paint adherence. Doors are constructed with composite capped stiles and rails to prevent water and insect damage. The square edge design of all Smooth-Pro Doors creates the look of traditional wood doors. All Smooth-Pro Doors are built with BASF's innovative Neopor® Core.

Smooth

Steel Doors

JELD-WEN Steel exterior doors are durable and affordable. They include wood stiles and rails with mitred top corners to prevent water absorption. Galvanized steel facings are factory primed with neutral, low-sheen, baked-on enamel primer for easy finishing.

Contours™ Premium Steel

Contours Premium offers steel performance with an upscale design. Our exclusive high-definition beaded sticking panel profile and other panel profiles in selected designs provide curb appeal to most any home style. Optional steel edge construction available for added durability and fire ratings up to 90-minutes.

Contours

Gladiator® Construction Grade Steel

The strength and durability of steel in classic designs for an attractive front or side entrance. Primed and ready to paint, Gladiator steel doors provide a great value.

Gladiator

Architectural Collection

The JELD-WEN Architectural Collection provides strikingly realistic woodgrains for eye-catching results. Our exclusive fiberglass technology, reserved only for our Architectural Collection, delivers a combination of rich stainability, energy performance, protection and durability with each architecturally inspired design.

Contours™ & Gladiator® Steel

CONTOURS AND
GLADIATOR STEEL

These premium steel Contours doors feature a tough, galvanized steel facing with baked-on enamel primer and feature our exclusive high definition beaded sticking and double-hip panel profile. Other panel profiles are available in selected designs. They are available with an optional steel edge that delivers added security and a fire rating of up to 90 minutes. Many of the decorative glass options shown in Smooth-Pro Fiberglass may be used in Contours™ Steel Doors.

JELD-WEN® IMPACT AND COASTAL RATED DOORS

JELD-WEN is dedicated to making doors that perform reliably in any climate and offers door systems that stand up to salt air, coastal moisture, severe winds and dangerous wind borne debris.

JELD-WEN coastal door systems not only protect your home from weather related damage, but are also well suited for areas where heightened security is a concern.

	Available Product	Door Options	Building Codes
Wind Borne Debris Region (WBDR)	- Standard Fiberglass - Steel	- All Panel - Impact glass only	- Florida Building Code - Texas Dept. of Defense - National & Regional Codes
High Velocity Hurricane Zone (HVHZ)	- Reinforced Fiberglass - Steel	- All Panel - Impact glass only	HVHZ areas of Florida

Missile Impact Testing

Meeting the WBDR and HVHZ requirements involves stringent performance evaluations. To pass the missile impact test the door unit must withstand an 8 foot long 2" x 4" being fired at 35 mph to designated spots on the door surface and glass unit. After this, the system must remain intact through 9000 pressure cycles to simulate the winds of a hurricane.

2" x 4" FIRED @ 35MPH

IMPACT!

Remains intact through 9000 pressure cycles.

*Visit www.jeld-wen.com and your JELD-WEN dealer for specific details on door systems requiring coastal certifications. Always check with local building codes in your area. Doors must be installed in accordance with JELD-WEN product approvals.

Impact Door Choices

JELD-WEN Impact Rated doors are available in a variety of materials and designs for your home. Below is a summary of the available options.

DOOR CONSTRUCTION

FIBERGLASS DOORS

ARCHITECTURAL COLLECTION

**1-3/4" DOOR**

- » Realistic woodgrain fiberglass facing
- » Square edge design
- » 4" LVL stiles with hardwood edge band
- » Composite top and bottom rails
- » Innovative BASF Neopor® core
- » Raised moulding designs available
- » 20-minute fire rating construction available

DESIGN-PRO COLLECTION

**1-3/4" DOOR**

- » Woodgrain fiberglass facing
- » Square edge design
- » Composite capped LVL stiles and rails
- » Composite top and bottom rails
- » Innovative BASF Neopor® core
- » 12" lock block
- » 20-minute fire rating construction available

SMOOTH-PRO COLLECTION

**1-3/4" DOOR**

- » Smooth fiberglass facing
- » Square edge design
- » Composite capped LVL stiles and rails
- » Composite top and bottom rails
- » Innovative BASF Neopor® core
- » 12" lock block
- » 20-minute fire rating construction available

STEEL DOORS

CONTOURS™ COLLECTION

**1-3/4" DOOR**

- » LVL stiles and rails
- » Steel bottom rail
- » Galvanized steel facing
- » Bright white primer
- » 12" lock block
- » Energy efficient core
- » 20-minute fire rating construction available
- » Optional steel edge for 90-minute fire rating

GLADIATOR® COLLECTION

**1-3/4" DOOR**

- » LVL stiles and rails
- » Steel bottom rail
- » Galvanized steel facing
- » Cream color primer
- » 12" lock block
- » Energy efficient core

All doors may be ordered with reinforcing for door closers and exit devices.

Fact Sheet

Neopor® Graphite Enhanced Thermal Insulation for JELD-WEN® Entry Doors

JELD-WEN® thermal door cores made from BASF Neopor® rigid thermal insulation leverage a BASF patent that allows BASF to integrate graphite into the Neopor cell structure. The high-purity graphite reflects radiant heat and significantly improves insulation capacity. The compelling advantage: exceptional and stable long-term thermal insulation performance. Neopor is "Innovation in Insulation."

Benefits from the use of Neopor:

- Long-term stable R-value
- Enables doors to meet requirements of the ENERGY STAR® Program
- Neopor is GreenGuard® Certified for Indoor Air Quality
- Expansion agent, pentane, has low Global Warming Potential and Zero Ozone Depletion Potential
- Neopor has low water absorption and is dimensionally stable throughout typical temperature range
- Neopor Rigid Thermal Insulation is produced under rigid quality standards

Properties of JELD-WEN Door Core made of Neopor:

- NFRC Listed R-value = 5.1/in at 35°F
- Does not contain fluorocarbons (CFCs, HCFCs, HFCs)

STAIN KIT

ARCHITECTURAL AND DESIGN-PRO FIBERGLASS DOOR STAIN KIT

JELD-WEN Fiberglass Door Stain Kits are easy to use. The stain and top coat provide lasting beauty and increased protection to your door. The Stain Kit comes with everything required to stain and finish one fiberglass door and two sidelights or one double door unit. Contact your local JELD-WEN dealer for availability.

Stain Color Options Available

Dark Mahogany

Mocha

Teak Natural

Moorish Teak

Chestnut

Stain colors shown are photographs and intended as a general guideline.
The final stain color will vary with the fiberglass specie chosen and the number of stain coats applied.

Every door type weathers differently. Wood doors, for example, are more susceptible to the elements than steel or fiberglass. The following are some guidelines for designing the best combination of door material, overhang protection, and other factors affecting the long-term performance of the door.

Overhang

An overhang as shown is required for wood doors, and recommended for steel and fiberglass doors. Overhangs protect the door's finish, minimize the need for refinishing and help keep the weather out of the home. An example formula for determining the correct overhang (in many climates) is: $D \text{ (Depth)} = 1/2H \text{ (Height)}$. For example, if the measurement from the base of the door to the bottom of the overhang is 10 feet, then the overhang should extend at least 5 feet. This formula can change based on the climate and the direction the door faces. The following section will explain how to modify the formula based on these factors.

Climate & Exposure

Also consider the variables specific to your region. The climate and the direction a door faces play a key role in determining a proper overhang. Typically, southern and western exposures are harshest. With southern exposures, the sun beats down on the door from sunrise to sunset. In western exposures, the door receives sunlight in the hottest part of the day.

Please consult the following chart and adjust the depth of the overhang as needed.

Climate	Direction the door faces			
	North	South	East	West
Desert	$D = 1/2H$	$D = 2H$	$D = 1/2H$	$D = 2H$
Ocean	$D = 1/2H$	$D = H$	$D = 1/2H$	$D = H$
Wet	$D = H$	$D = H$	$D = H$	$D = H$
Mild	$D = 1/2H$	$D = H$	$D = 1/2H$	$D = H$

Without adequate overhangs, doors with a southern, southwestern, southeastern or western exposure will require more frequent maintenance. Doors without appropriate protection may also experience performance problems such

as rapid finish deterioration, color fading, wood splitting, warping, moulding shrinkage, wood joint separation, and water penetration between the mouldings, panels, and glass.

With proper overhangs, doors may face any direction (north, south, east or west). Doors installed in these types of applications still require finish maintenance. Wood doors, for instance, may need to be refinished every two to five years.

Color Choice

No matter what type of exterior door is selected, color choice may effect how quickly the exterior of the door weathers in extreme climates. In general, darker colors absorb more heat than lighter colors. The exterior face of a door exposed to the sun in harsh environments can reach temperatures well in excess of 120 degrees. As a rule of thumb, if you cannot hold your hand on the face of the door for more than 30 seconds, the door is too hot. These extreme temperatures can cause noticeable damage to the door including finish deterioration and accelerated color fading.

In addition, extreme temperature changes can cause warping, sticking and other performance problems. For doors with little protection or doors installed in hot environments, light colors may help reflect the heat and slow down heat build-up. Depending on the exposure and environment, other precautions (such as overhangs) should be taken to protect the door from the effects of the sun.

Storm Doors

Storm doors provide additional protection for exterior doors in many climates. They shelter the door mainly from rain and wind, though a storm door with dual pane Low-E glass will also block UV rays. In hot climates, adding a storm door may not be a good choice. Heat builds up between the two doors and can cause substantial damage like warping, color fading, and wood joint separation on the door. A storm door in front of a dark colored exterior door can accelerate heat build up even more. Storm doors selected for these situations should be vented to relieve excess heat build-up.

Patio Doors

Steel and fiberglass French and Patio doors have the same overhang requirements as the other entry door types. Provide an adequate overhang to protect them from exposure. Some patio doors are specially built to withstand water intrusion and can be safely placed in locations with more exposure. For more information, consult your product's specific certification information or contact us.

JELD-WEN Warranties

This document provides general information about measures that can be taken to better protect exterior doors, but no warranties are provided by this document. For specific product information and available product warranties please refer to www.jeld-wen.com or contact us at 1-800-JELD-WEN (1-800-535-3936).

The information contained herein is provided solely for informational and/or educational purposes. JELD-WEN disclaims any and all liability associated with the use and/or provision of this information. Any reliance upon the information or advice is at the risk of the party so relying. The information contained herein may be changed from time to time without notification.

JELD-WEN® INTERIOR AND EXTERIOR DOOR SLAB AND SYSTEM LIMITED WARRANTY

OUR WARRANTY TO YOU...

JELD-WEN® Products¹ are designed to create lasting value for your home. This warranty is effective for JELD-WEN products manufactured on or after **May 1, 2012** for use in the United States and Canada. Any previous warranties will continue to apply to products manufactured by JELD-WEN prior to this date. For additional information, including care and maintenance information refer to www.jeld-wen.com or www.jeld-wen.ca.

What This Warranty COVERS

We warrant to the original owner² that if your JELD-WEN Product exhibits a defect in material or workmanship within the time periods from the date of purchase as specified below, we will, at our option, repair, replace or refund the purchase price of the Product or component part. Skilled labor³ (where deemed necessary by us) to repair or replace any component is provided for **one (1) year** from the date of purchase.

Owner-Occupied Single-Family Residence Limited Warranty

Door Slabs: Except as set forth below, we warrant our door slabs, including any glass inserts, miscellaneous hardware, and accessories provided and installed by us, as follows:

Door Slab	Coverage
Fiberglass Exterior Doors	As long as you own and occupy your residence
FiberLast® Engineered Composite Exterior Doors	As long as you own and occupy your residence
Steel Exterior Doors	Ten (10) years
Wood Exterior Doors	Five (5) years
Interior Doors	Five (5) years

Factory Prefinish: We warrant the factory-applied prefinish on our doors against peeling, checking, or cracking for periods listed below. Should the factory prefinish be proven defective, we will at our option, replace or refinish the door or pay up to credit per opening to the current owner. (Note: this coverage applies to factory-applied finish coat options only; standard factory-applied primer is not a finish coat.)

Product	Coverage	Refinish Credit
Aurora® Fiberglass Doors	5 years	\$350 per opening
Custom Exterior Wood Doors	1 year	\$250 per opening
Custom Interior Wood Doors	1 year	\$150 per opening
All other Doors	1 year	\$100 per opening

Door Frames: We warrant our door frames for **one (1) year** from the date of purchase.

AuraLast® Protection for Door Slabs and Frames: Our AuraLast pine wood door slabs will be free from wood decay and/or termite damage for **twenty (20) years** from the date of initial purchase. Our AuraLast pine door frame components will be free from wood decay and/or termite damage **for as long as the original consumer owns the home** in which the AuraLast wood frames are originally installed. Warranty coverage outside Canada, the contiguous 48 states and Alaska is contingent upon approval from the JELD-WEN Customer Care Department. Please contact us.

Severe Weather® Glass: We warrant each Severe Weather glass unit for **ten (10) years**.

Retractable Screens: We warrant retractable roll screens for **five (5) years**.

Spontaneous Glass Breakage: We warrant sealed glass units installed in exterior doors (excluding laminated glass, and special glazings) for spontaneous breakage for **one (1) year** (including free replacement glass and skilled labor³ necessary

to replace the glass for one (1) year. Spontaneous breakage occurs when the glass develops a crack without sign of impact.

Commercial Limited Warranty (Other than Owner-Occupied Single-Family Residence)

Fiberglass, FiberLast, Steel, Wood and Interior Door Slabs: We warrant our door slabs for **five (5) years** from the date of initial purchase.

All Other Products, Components, Prefinishes, and Options as Listed Above: Coverage is the same as for Owner-Occupied Single-Family Residences as listed above.

Transferability

This warranty is not transferable.

How to Get Assistance

If you have a problem with your JELD-WEN Door, immediately upon discovery, contact the distributor or dealer from whom you purchased our product or contact us directly:

In the United States:

Mail: JELD-WEN Customer Care
Attn: Door Warranty Claims
P.O. Box 1329, Klamath Falls, OR 97601
Phone: 800-JELD-WEN (800-535-3936)
Fax: 800-436-5954
Email: CustomerServiceAgents@jeld-wen.com
Web: www.jeld-wen.com/contact-us

In Eastern Canada:

Mail: JELD-WEN Service Department
90, rue Industrielle
Saint-Appollinaire, Quebec, Canada G0S 2E0
Phone: 800-463-1930
Fax: 888-998-1599

In Western Canada:

Mail: JELD-WEN Service Department
550 Munroe Avenue
Winnipeg, Manitoba, Canada R2K 4H3
Phone: 888-945-5627
204-668-8230
Fax: 204-663-1072
Email: wpgservice@jeld-wen.com

We can respond quickly and efficiently if you provide the following: a) date and location of purchase, or product identification from the tag on the top edge of the slab, b) how to contact you, c) the address where the product can be inspected, and d) a description of the apparent problem and the product (photographs are helpful).

What We Will Do

Upon receiving your notification, we will send out an acknowledgement within three business days to the contact, which you have provided. We will investigate your claim and will begin to take appropriate action within 30 days after receipt of notification. If your warranty claim is denied, we may charge an inspection fee for an onsite inspection that is required or requested by you.

If your claim is accepted, and we choose to repair or replace the product or a component of the product, the replacement product/component will be provided in the same specification as the original product. Replacement products, components and services are warranted for the balance of the original product or service warranty, or 90 days, whichever is longer.

If the claimed nonconformity is warp of a door slab, we may defer repairing or replacing the door slab for a period up to 12 months from the date of claim. It is not uncommon for a temporary warp condition to occur as the door slab adjusts to local humidity and temperature conditions. This deferral will not be counted against the warranty period.

Continued on next page

What This Warranty Does NOT Cover

JELD-WEN manufactures and sells both individual door slabs and complete door systems. This warranty does not cover parts or components (e.g., locksets, handles, etc.) not sold by JELD-WEN to the original owner. See your distributor or dealer regarding the warranty on the entire door system and/or these other components.

We are not liable for:

- Normal wear and tear, including normal wear and tear of weatherstrip; and natural weathering of surfaces or variations in the color or texture of wood or finish; surface cracks that are less than 1/32" in width and/or 2" in length; for knotty alder and juniper: surface checks that are less than 1/8" in width and/or 5" in length, and knot placement, quantity, or size.
- Problems due to misuse or abuse; failure to follow the care and maintenance instructions; or as a result of any cause beyond our reasonable control (e.g. fire, flood, earthquake, other acts of nature, and acts of third parties outside of our control).
- Problems related to: improper field finishing of all surfaces (front and back) and edges (top, bottom, and sides) of the door slab and frame (See our Finishing Instructions at www.jeld-wen.com/resources); variation or unsatisfactory results in sheen or texture resulting from the field application of paint or any other finishing material.
- Failure to provide an adequate overhang for exterior doors; damage caused by extreme temperature buildup where storm doors are present. For general guidelines, see our "Appropriate Protection for Exterior Doors" in our product literature or at www.jeld-wen.com/resources; for specific information pertaining to your structure, consult your contractor or other building professional.
- Warp for any 3'6" wide by 8'0" high by 1 3/4", or smaller door slab, which does not exceed 1/4" in the plane of the door slab itself; door slabs wider and/or higher are not guaranteed for warp.
- Bow or misalignment in the frame or jamb in which the door slab is hung (if such is purchased from JELD-WEN unmachined and not prehung).
- Slight expansion or contraction due to varying environmental conditions; slab movement (shrinkage or swelling) of 1/4" or less due to temperature and humidity, consult our Care & Maintenance documents on how to work with this natural movement.
- Wood decay for wood components other than of AuraLast pine; and wood decay for any wood components (including pine) that come in direct contact with soil. Note: superficial mold/mildew does not indicate wood decay.
- Problems related to water and/or air infiltration due to improper assembly; installation errors or flaws in building design and construction; installation must be in strict conformance with the installation instructions provided by the manufacturer of the door entry system.
- Structural integrity issues or other problems caused by improper field fitting of the hardware, improper sizing of the door slab, or other assembly problems.
- Slight imperfections or wavy distortions in the glass that don't impair structural integrity. Note: wavy distortions in the glass (e.g. related to laminate interlayer or heat strengthening of glass) are not considered a defect. Slight color variations in glass are not considered a defect.
- Screen damage due to normal wear and tear, misuse, abuse, or insect or animal activity.
- Condensation or damage as a result of condensation (Note: unless due to insulating glass failure, most condensation problems are related to excessive humidity levels in a structure; contact a heating/air conditioning specialist for help).
- Damage or poor product performance resulting from installation into a condition that exceeds product design standards and/or certified performance specifications and/or does not comply with applicable building codes.
- Hardware, accessories or inserts that are not provided by us.
- Discoloration or rusting of decorative metal accent options, such as grilles, clavos, straps, etc.; discoloration of wood sills provided by us.
- Cost for labor, removal or disposal of defective product(s), installation or finishing of the replacement door or component.
- Incidental or consequential damage. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so this may not apply to you.

Important Legal Information --

Please read this carefully. It affects your rights.

This Limited Warranty document sets forth our maximum liability for our products. We shall not be liable for special, indirect, consequential, or incidental damages. Your sole and exclusive remedy with respect to any and all losses or damages resulting from any cause whatsoever shall be as specified above. We make no other warranty or guarantee, either express or implied, including implied warranties of merchantability and fitness for a particular purpose to the original purchaser or to any subsequent user of the Product, except as expressly contained herein. In the event state or provincial law precludes exclusion or limitation of implied warranties, the duration of any such warranties shall be no longer than, and the time and manner of presenting any claim thereon shall be the same as, that provided in the express warranty stated herein. This Limited Warranty document gives you specific legal rights, and you may have other rights that vary from state/province to state/province.

Any dispute, controversy or claim arising out of or relating to this warranty, any alleged breach thereof, or the use or sale of the products to which this warranty applies shall be resolved by mandatory and binding arbitration administered by the American Arbitration Association in accordance with its commercial arbitration rules. Original purchaser agrees that they may assert claims against JELD-WEN in their individual capacity only, and not as a plaintiff or class member in any purported class action proceeding. Rejection of these dispute resolution provisions must be sent to JELD-WEN at the address provided herein within thirty (30) days of original purchaser's receipt of the Products to which this warranty applies.

No distributor, dealer or representative of JELD-WEN has the authority to change, modify or expand this warranty. The original purchaser of this Product acknowledges that they have read this warranty, understand it and are bound by its terms and agrees to provide this warranty to the original owner of the structure into which the Product is installed.

¹ "JELD-WEN Products" shall refer to interior and exterior door slabs and systems manufactured in the United States and marketed under the JELD-WEN brand name for use in the United States and Canada. See our separate Export Warranty for applicable coverage on products used outside the United States and Canada.

² This warranty extends to the original owner (original owner means the contractor/dealer/distributor/purchaser and the initial owner of the structure where the product is initially installed) and is not transferable. The original purchaser of this product acknowledges that they have read this warranty, understand it and are bound by its terms and agrees to provide this warranty to the original owner of the structure into which the product is installed. Should state or provincial law preclude no transferability, then the warranty period is effective as applicable up to **five (5)** years from the date of initial purchase for door slabs and systems and **one (1)** year from the date of manufacture for the factory pre-finish.

³ "Skilled labor" refers to tasks where specialized technical knowledge, experience, methods or tools are required to properly identify, diagnose and/or correct product-related problems.
